

Reception Social Action Project

How can we care for our world?

SUSTAINABLE
DEVELOPMENT
GOALS

"I have the right to an education that encourages me to respect the environment"

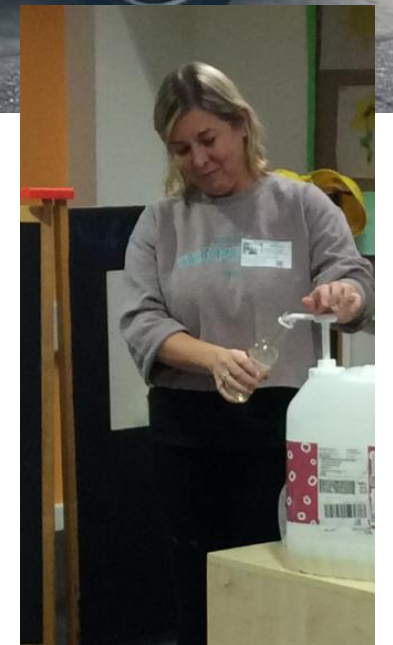

Article 29

Debbie from the Roving Refillery came to talk to us about using less plastic when we shop.

She told us about how we can refill containers again and again at her mobile shop, which visits different areas of our community throughout the week. She started her business because she wanted to help our planet by reducing the amount of plastics being used.
